SUMMARY

Junior Software Developer with experience on web application development using React, Asp.Net and Nodejs. Developed and contributed to scalable microservice architectures and SaaS applications leveraging AI technologies. Eager to apply skills in creating innovative solutions and enhance user experiences.

EXPERIENCE

21st Century Technologies | *NETWORKING (INTERN)*

Aug 2022 - Oct 2022

- Followed network management system policies and operational guidelines to maintain system integrity
- Assisted in testing and installation of network cables on-site, ensuring reliable connectivity and reducing downtime
- Tested HikVision security cameras and fiber connections, ensuring optimal performance and enhancing security measures
- Mounted router poles and cameras across various organizations, improving network infrastructure and security coverage
- Configured security cameras to enhance organizational security, utilizing problem-solving skills to ensure effective surveillance
- Ensured a safe and compliant workspace by applying Environmental, Health, and Safety Procedures and addressing potential hazards using problem-solving skills

Skway Aviation Handling Company Plc (SAHCO) | *BACKEND DEVELOPER (INTERN)*

Aug 2023 - Nov 2023

- Adhered to policies and operational guidelines related to the established quality management system, ensuring compliance and consistency in operations
- Assisted in documenting and testing APIs using Postman for a project application that manages passenger information and properties, enhancing the application's reliability and user experience
- Developed a project using React for the client side and Node.js with Express framework for the server side, applying agile methodology and microservice architecture to improve scalability and efficiency
- Developed APIs to handle passenger images using platforms like Cloudinary, improving image management and storage capabilities
- Created a web-based photographer blog application using JavaScript, Express framework, EJS, and MongoDB with a monolithic architecture, enhancing user engagement and content management
- Followed Environmental, Health, and Safety Procedures in the workspace, ensuring a safe and compliant working environment

IHS Towers | *APPLICATION DEVELOPER (INTERN)*

Mar 2024 - Aug 2024

- Adhered to company policies and operational guidelines, ensuring compliance and smooth operations
- Developed an asset management system using ASP.NET 8 framework (C#) and Microsoft SQL Server, replacing Excel sheets for tracking asset information, which improved data accuracy and accessibility
- Developed an e-commerce application using a microservice architecture with ASP.NET 8, Microsoft SQL Server and Stripe, enhancing scalability and performance for online transactions
- Gained experience in using Transact-SQL within Microsoft SQL Server, enhancing database management skills and contributing to more efficient data handling
- Utilized Microsoft 365 tools such as Power Apps, Power BI, ServiceNow, and Power Automate to streamline workflows and enhance team collaboration
- Completed a hands-on project using Power Apps, enhancing application development skills and contributing to team objectives
- Ensured a safe working environment by following safety policies and procedures, which reduced potential hazards and improved team safety awareness

EDUCATION

Fountain University Osogbo — Osogbo

Nov 2021 - Aug 2025

Bachelor's Degree

- **Coursework:** Computer Science

SKILLS

- Testing and Debugging, Problem solving, Team work, Source control (Git, Github), DBMS (Mongodb and Microsoft SQL Server), Programming languages (C#, Javascript and TypeScript), React, Full Stack Development, HTML5, CSS, Tailwind, Docker, Microservices, Kubernetes

LANGUAGES

- English
- Yoruba
